News: Malaysia-based iHEAL Medical Centre has entered a Memorandum of Understanding (MoU) with the health ministry of Timor Leste to formally establish a partnership to provide a better healthcare system in the country. Under the MoU, iHEAL will set up a Cardiac and Kidney Clinic inside the Guido Valadares Hospital of Dili, Timor Leste, in 2014. The clinic will also have regular visits by a team including specialists and paramedical staff from iHeal Medical Centre to give further training to the medical staff there, according to iHEAL Medical Centre founder and medical director David Khoo Sin Keat. -
